

Good Delivery of Care at Home

Caroline Johnstone - Parent

Susan Milne

Team Leader Community Children's Nursing
NHS Forth Valley

Nursing Services provided in partnership with Social Work, Education and 4th Sector

For Children and Young People requiring support for

- Short term health conditions
- Long term chronic health conditions
- Exceptional health needs
- End of life care

Our philosophy for person centred care for child / young person / family based on **GIRFEC : My World Triangle**

- What I need from people who look after me
- My wider world
- How I grow and develop

Key themes in providing good person centred care at home

- Safe and evidenced based
- Meets the needs of child and family
- Flexible - adapts to varying health and social needs
- Working in partnership with child and family
- Focus on self-care where possible

The team work in urban, remote and rural areas of NHS Forth Valley

Provide training, direct nursing care and signposting to other services.

To enable child and family to access:-

- School
- Playgroup / Nursery / Child Minders / Care from unpaid carers
- Play schemes
- Holidays

Challenges for provision of good care at home

Increasing numbers of children with complex health care needs

v

Limited resources

Provision of equipment and staffing

CCN Service only 5 days per week

Team Leaders do support children requiring palliative care out of hours.
